# INTRODUCTION

## WHY MiniChess?

**Machines will do what machines can do,  
becoming the workforce of the future**

**MiniChess teaches critical SKILLS -  
Things machines cannot do**

**MiniChess teaches skills that are NOT in  
the current school curriculum.**

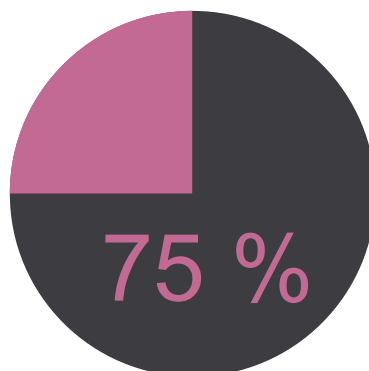

The World Economic Forum predicts the a countries economical success in the 21st Century will be greatly impacted by

- o Cognitive capacity
- o Creativity attributes

It is estimated that there will be major global SKILLS-gap:

- o 40 Million unfilled high-skilled jobs
- o 45 Million unfilled medium-skilled jobs
- o a Surplus of 95 Million low-skilled workers

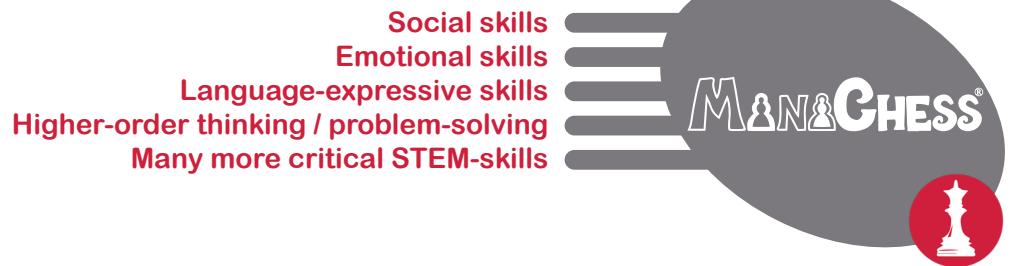

Global research indicates that 75% of the fastest growing occupations now require STEM-skills

**Invention and innovation (including agility and adaptability  
will be essential to the economic survival of countries**

# THE WAY FORWARD

**PLAY** is a **Neutral, Fun** and **Engaging** platform for learning

**Very little of these SKILLS are taught in schools and institutions**

**MiniChess bridges the gap and makes it easy with 4 types of programs**

**MiniChess Clubs**

**In-school Classes**

**Online Classes (Live)**

**Blended MiniChess Options**

**FIND OUT MORE**

# WHY MINICHESSES

MiniChess develops CRITICAL SKILLS through **PLAY**.  
By focussing on the early years (4 - 10), your child will develop
